

PigginPoles **CATALOG** 2023-2024

PigginPoles is the only patented tool on the market that has been specifically designed, manufactured, and tested to aid in a safer launch and retrieval of pipeline pigs.

ABOUT Our Piggin Pole

Specifically designed and field tested this professional-grade tool to assist in launching and retrieving pigs while performing pipeline maintenance. Manufacturing began soon afterward in a backyard welding shop. Today, PigginPoles offers the only patented spark resistant pole system to launch and retrieve pipeline pigs, ensuring more guys go home at the end of every day.

1885 – The World's First Pipeline Pig was patented.

2013 - The first PigginPoles were sold.

PIPE LINE CLEANER

The Go-Devil was originally called "Pipe Line Cleaner". It was invented by John S. Klein for the National Transit Pump and Machine Co. out of Oil City, PA. This is one of the last ones that had leather cups on it (later replaced by rubber). Until recently, there were still a few companies using them in East Texas. It was actually a pretty effective scraper on paraffin wax.

OUR CATEGORIES

PigginPoles

Manufactured from durable, high strength aluminum for a tool that works as hard as you do. Limited flexibility ensures hitting the target every time.

HogginPoles

A larger version of our pole system for those hefty pipeline pigs we affectionately call "hogs."

PigginPoles

- Standard 3 six-foot segments
- Break down to easily store in a truck bed
- Expandable to meet your needs
- Additional accessories available
- Spark resistant

Standard 3 Pole Set PigginPoles

Total Weight : 18 pounds

Total Length : 18 Feet

- 18 feet of the only spark resistant pigging system
- Aluminum Hook and Ram cast with special alloys for strength and long life
- Precision drilled for exacting tolerances and fit
- Every pole is indexed so you always know where your hook is in the tube.

Components	Description	Part #1103
#1 PigginPole	6 Foot Pole; female/female ends	1001
#2 PigginPole	Two 6 Foot Poles; male/female ends	1002
Aluminium Hook	950 pounds smooth pulling force	1003
Aluminium Ram	4 inch diameter	1004
Fasteners	1 - Brass Bolt w/Nut	1005
	3 - Lock Pins	1006

Components PigginPoles

Modular Components allow for adding additional lengths, replacement parts, and special orders.

#1 PigginPole. 1001

Each PigginPole Set begins with a #1 Pole.

Size : 6 Feet

Ends : Female/Female

Material : Aluminum

#2 PigginPole 1002

Add multiple #2 PigginPoles for the length of the launch tube.

Size : 6 Feet

Ends : Male/Female

Material : Aluminum

PP Hook 1003

Proprietary cast Aluminum alloy for greater strength and safety.

Force Tested : 950 lbs. direct pull

Material : Aluminum

PP Ram 1004

Proprietary cast Aluminum alloy for greater strength and safety.

Size : 4 inch

Material : Aluminum

Brass Bolt w/nut 1005

Size : PP

Material : Brass

PP Lock Pin 1006

Tabbed for ease of use.

Size : PP

Accessories PigginPoles

Multiple accessories are available to make your job safer and more efficient.

Gen 2 PP Dolly 1217

Center your Hook; Adjustable; Pole can rotate 360° w/in Dolly

Size : 9" – 12"

Fits : 18" – 24" pipe

Material : Aluminum

Infinite Dolly 1218

For smaller pipe, Adjustable, Pole can rotate 360°

Size : 5" – 11"

Fits : 10" – 22" pipe

Material : Aluminum

Spade 1201

For scooping the muck out of pipes.

Size : PP

Material : Aluminum

Scraper Hoe Head 1202

Fits the curve of your pipe for easier cleaning.

Size : 6"

Material : Aluminum

Hoe Blades 1203-size

Additional blade sizes bolt on to the Head for cleaning larger pipe.

Sizes : 8" / 10" / 12" Each sold separately.

Material : Aluminum

16" – 24" special order
Part #1223-size

Polly Handle 1205

Our Poly Handle provides a grip for ease of use.

Size : PP

Material : Aluminum Stud

Accessories

PigginPoles

Multiple accessories are available to make your job safer and more efficient.

Flashlight 1206

Intrinsically safe flashlight.
Bracket sold separately.

Size : PP

Color : Yellow

Material : Plastic

Flashlight Bracket Only 1207

Plastic bracket designed specifically for our PigginPoles.

Size : PP

Color : Black

Material : Plastic

Coated Steel Hook 1209

Steel Hook with a durable coating for wrangling heavy pigs.

Size : PP

Material : Steel and Aluminum

Foam Pig Hook 1204

Designed to catch foam pigs with ease.

Size : PP

Material : Aluminum

Plunge Hook 1213

Steel Hook for dislodging stuck pigs. Comes with PP Adapter.

Size : PP

Material : Steel and Aluminum

Plunge Hook only 1214

Plunge Hook without Adapter.

Size : add a PP or HP Adapter

Material : Steel and Aluminum

Accessories PigginPoles

Multiple accessories are available to make your job safer and more efficient.

Pull Shackle 1210

Attach a chain to mechanically pull a pig from the pipe.

Size : PP

Material : Aluminum

PP T-Handle 1211

2 - 4 guys can push at the same time.

Size : 48"

Material : Aluminum

PP Adapter Only 1215

Fits #1 and #2 PigginPoles

Size : 5/8" – 11 threads

Material : Aluminum

PP 3D Ram 1216

Designed to push Smart Pigs without damaging them.

Size : XXL

Material : Aluminum

Machined Ram 1212

If you need a larger Ram, we can machine one to meet your needs.

Size : Custom

Material : Aluminum

PP to HP Adapter 2222

Created for one T-Handle to work with PigginPoles and HogginPoles.

Size : PP and HP

Material : Aluminum

New Accessories PigginPoles

Multiple accessories are available to make your job safer and more efficient.
